

2023 Provider Administered Drug Prior Authorization List

InterCommunity Health Network CCO

Infused/injected drugs given in outpatient hospital or ASC will not require prior authorization unless they are on the following list:

- The list below has injectable drugs billed under the Medical Benefit that require approval.
- Codes may change with CMS HCPCS codes quarterly updates. Samaritan Choice Plans requires the active codes on the date of service be used in the submission of a request.
- If a drug is **not** found on this list and will be “buy and bill”, it means it does not require an authorization. Exception to this includes drugs that are new to market (those may not yet be on the list but will require authorization).
- Not Otherwise Classified (NOC) codes or “dump codes” J9999, C9399, J3490 and J3590 should only be used if there is not a more specific HCPCS or CPT code available. Authorization will be required for any of these NOC codes over \$1000.
- If a drug is self-administered, even with a J-code, an authorization request will need to be sent through the pharmacy benefit.
- ¥ Medication is not covered.
