

SamFit Implements State-Mandated Face Covering Requirement

July 23, 2020

In accordance with Governor Brown's executive order which went into effect on July 24, SamFit is issuing the following requirements for all members.

Face coverings are now required to be worn at all times when in a SamFit facility, including during active exercise. Members with a disability or medical condition may request accommodation from SamFit if they cannot wear a mask.

SamFit members will notice safety protocols, cleaning and sanitization requirements when they return:

- Members will be required to sanitize their hands upon entry.
- Members will also be required to clean equipment before and after each use.
- Racquetball courts will be closed and some equipment will be blocked to ensure proper physical distance between members.
- A SamFit staff member will be on hand to ensure social distancing and do continuous cleaning as needed, including the locker rooms.
- Lockers and locker rooms will be open for changing, but showers and saunas will be closed for the time being.
