Living well with chronic conditions

This six-session workshop helps people with chronic conditions learn how to take control of their health. Participants build skills and confidence for managing health, staying active and enjoying life.

This class is for adults who have diabetes, heart disease, high blood pressure, arthritis, asthma, COPD or any other chronic condition. Participants will learn how to:

- Manage medications
- Fight fatigue
- Fight frustration
- Deal with depression
- Start a physical activity program
- Eat well
- Manage stress
- Help control pain
- Handle emotions
- Meet goals

Online classes may be available. Call for more information.
