Samaritan Pharmacies Are Offering New Services

Samaritan Health Services pharmacies are now offering temporary mailing, home delivery and curbside pickup prescription services, so members do not need to come into the retail pharmacies in Albany, Corvallis, Lebanon and Newport.

Please allow five to seven days for refills: “Our goal is to get members the medications they need while reducing the risk of COVID-19 contact for everyone,” said Kevin Russell, operations manager of Samaritan’s retail pharmacies. **“Mail delivery is the best way to go. We are asking members call the pharmacy five to seven days before they need their refill.”**

When next-day service is needed, we now offer home delivery: Samaritan Pharmacy is now also able to do home delivery, so you get your medication the next day, when it’s necessary. This service is available in Albany, Corvallis, Lebanon, Newport and Sweet Home.

Please stay in your car when coming to the pharmacy: Members needing to come to the pharmacy for urgent needs can call us from the parking lot. Pharmacy staff will pick up your written prescription and deliver the medication to your car. **This service is available at the locations in Albany and Corvallis**, with parking spots marked for this purpose.

Samaritan’s pharmacy in Lebanon will be a drive-through only location for all services until further notice.

“Samaritan Pharmacy is dedicated to serving our members, patients, employees and community in this time of need,” Russell said. “We want to do everything we can to help keep you healthy.”

For more information, please call your local pharmacy.
