Samaritan Health Services Pharmacies Are Offering New Services

Samaritan Health Services Pharmacies are offering temporary mailing, home delivery and curbside pickup prescription services, so members do not need to come into the retail pharmacies in Albany, Corvallis, Lebanon and Newport.

Please allow five to seven days for refills: “Our goal is to get members the medications they need while minimizing the risk of COVID-19 exposure for everyone,” said Kevin Russell, operations manager of Samaritan’s retail pharmacies. **“Mail delivery is preferred.** We are requesting members call the pharmacy **five to seven days ahead** of when they’ll need their refill.”

When next-day service is needed, we now offer home delivery: Samaritan Health Services Pharmacies are now also offering home delivery for next-day service, when it’s necessary. This service is available in Albany, Corvallis, Lebanon, Newport and Sweet Home.

Please stay in your car when coming to the pharmacy: Members needing to come to the pharmacy for urgent needs can call in from the parking lot. Pharmacy staff will pick up your written prescription and deliver the medication to your car. **This service is available at the locations in Albany and Corvallis,** with parking spots marked for this purpose.

Samaritan Health Services’ pharmacy in Lebanon will be a drive-through only location for all transactions until further notice.

“Samaritan Pharmacy is dedicated to serving our members, patients, employees and community in this time of need,” Russell said. “We want to do everything we can to help keep you healthy.”

For more information, contact your local pharmacy.
